

## Getting Started with HappyUnwrappy

You've downloaded the app. Now what? Let's talk you through the unique features of HappyUnwrappy.

### How does it work?

- > Create a profile
- > List your favourite things
- > Scan or browse for gifts for your wishlists
- > Add your friends
- > Shop with certainty

HappyUnwrappy allows you to create a user profile where you can list your preferences for items such as your fragrance or cologne, wine, chocolate and flowers, and your correct shoe and clothing sizes. This basic information can stay listed on your profile permanently so that at any point your friends know what to pick up on the way to a dinner party at your place, or any generic occasion.

You can then create numerous wishlists with names such as "birthday", "Christmas", or "baby shower" for particular events throughout the year. Adding items to your lists is easy – the app features a barcode scanner where you can scan any item and have it upload instantly with an image and details, or you can add them while browsing online within the app.

Finding your friends is the next step – the more friends and family you connect with on the app, the more gifts will be chosen from your wishlists, and the more effective it becomes. You also get to choose what information is private and what is public, choosing to make certain wishlists visible to certain people depending on the content.

Helpfully, HappyUnwrappy also lists online stockists under each wishlist item featuring price comparisons, making it easy to purchase your gifts online without having to go hunting. Once items are purchased from your wishlist, the buyer can check off the gift from your wishlist to avoid double ups from others buying you

the same thing. The app's clean design and useful categories make it user-friendly for those on the go, and the newsfeed tab allows users to track in real time when updates to friends' wishlists are made. You can also choose to sign in to HappyUnwrapPy by linking it with your Facebook account, allowing you to connect with friends who have already downloaded the app more easily.

No more re-gifting. No more selling unwanted items on eBay. No more feigned delight and disguised disappointment. Choose the right gift for the right person every time, with HappyUnwrapPy.
